

## Practice news

A huge congratulations to Tom and Jo on the birth of their son Joshua. They are doing really well and his two big brothers are a big help!

Welcome to Marianne our new Therapist that joins us on a Friday.

In early September we had our team building day enjoying quad biking, archery and giant inflatables!

## We are moving!

Have you heard our exciting news? We are the proud new owners of the clinic at 112 Coleshill road. It needs a bit of a makeover and some shiny new equipment inside and then we hope to move in next spring. Follow the progress at [www.76dental.com/themove](http://www.76dental.com/themove) or on social media:

## What is a Therapist?

This month we welcome our new Dental Therapist, Marianne to join the 76 Dental team every Friday. Marianne will carry out Hygienist services including routine scaling, polishing, advanced periodontal treatments and will be offering SLYC therapy, our popular treatment for sensitive teeth.

Dental Therapists also receive in depth training allowing them to carry out routine restorations and fillings as prescribed and recommended by our dentists. A Therapist is also trained to extract children's teeth, their friendly nature will ensure your children are at ease.

Our dental therapists at 76 dental are Ellie, Meena and Marianne.

## Just to let you know!

We are closed for a Denplan training day on the 12.10.2016

And

The 19.10.2016 for our CPR training from 1:30 – 3:30 pm

Thanks and sorry for any inconvenience from 76 Dental!
